## SUMMARY

*I spent 5 years inside spreadsheets. Now I build the systems that replace them.*

Developer with a background in accounting, HR & payroll, and controllership. From 2021 to 2025, ran the full HR & payroll cycle for 60+ client companies and also worked on the accounting side; since 2026, have built internal systems at Grupo Zen that are now in production. Every one of my projects grew out of a real problem I ran into at work.

## EXPERIENCE

Feb 2026 – present

**Grupo Zen** · a group of more than 20 companies

Junior Financial Systems Analyst (formal title: Controllership Assistant)

- Built several internal systems that are now in production.
- Controllership and reconciliation, internal controls, and AutoSystem ERP.

Sep 2025 – Jan 2026

**Fazenda Novo México** · agribusiness

Administrative Assistant (temporary contract)

- General administrative support for a large irrigation project.
- Helped coordinate in-house teams and contractors; ran meetings, monitored the work, and assisted with finance.

Feb 2021 – Sep 2025

**Astcon Assessoria Contábil** · accounting firm

Office Assistant (HR/Payroll & Accounting)

- Full HR & payroll cycle for 60+ client companies: hiring, terminations, vacation, severance, and Brazilian payroll filings (INSS, FGTS, eSocial, DCTFWeb).
- Also worked on the accounting side and supported the firm's other departments.
- Coordinated the team; served as the in-house go-to for technical questions and trained new staff.

## PROJECTS

**ArtMaker** `Live demo` alyssom-fernandes.github.io/ArtMaker

Generates 1080×1920 deal flyers for WhatsApp Status, in a single HTML file with Canvas; saves on the device itself. The app's default is Mercado Vitória, a real client. 17 tests on GitHub Actions. `JavaScript · HTML5 Canvas · localStorage · IndexedDB · Web Share API · node:test · GitHub Actions`

**UnifyData** `In production` alyssom-fernandes.github.io/UnifyData-Web

Monthly close of employees' credit purchases at the group's stores, recorded in AutoSystem: matches them against HR records and generates the payroll deduction spreadsheet by company, a CSV, and an A4 report. The web version runs in production; the Python version matches by name. 11 + 13 tests on GitHub Actions. `JavaScript · SheetJS · PDF.js · ExcelJS · Python · Streamlit · pandas · thefuzz · openpyxl · GitHub Actions`

**Fuel Mind** `In production` controle-entradas-posto.web.app

Tracks incoming fuel deliveries and freight; used daily in a real operation. Imports the NF-e (Brazilian electronic invoice, XML) and closes the month in PDF/Excel. 103 automated tests; replaced 6+ disconnected spreadsheets. `JavaScript · Firebase · Chart.js · jsPDF · SheetJS`

**Praxis** `Live demo` praxis-af618.web.app

Corporate purchasing from request to payment, in 7 stages: quotes, approvals, installments, deadlines, and time per stage. 6 access roles and 14 notification events; the workflow covers requester, buyer, approvers, and finance. `JavaScript (ES modules) · Firebase (Firestore, Auth, Storage, Hosting) · PWA · Cloud Functions`

**DeepChat** `Live demo` alyssom-fernandes.github.io/DeepChat

A chat where DeepSeek answers and ChatGPT reviews the answer with a verdict and, when there's an error, a revised version; no server, with API keys stored encrypted in the browser. Demo works without an API key; 26 tests on GitHub Actions.
`JavaScript (ES modules) · DeepSeek API · OpenAI API · marked · DOMPurify · Web Crypto · node:test · GitHub Actions`

**AudiStock** (Live demo) alyssom-fernandes.github.io/AudiStock/app.html
Inventory audits: counting on a phone (keyboard, barcode scanner, or camera) with an offline queue, closing against the ERP balance, and a shortage and overage report in PDF, Excel, and CSV. 70 unit and database tests and 34 end-to-end tests on GitHub Actions. JavaScript · Supabase (PostgreSQL + Auth) · IndexedDB · jsPDF · ExcelJS · SheetJS · BarcodeDetector · node:test · PGlite · Playwright · GitHub Actions

**AlertSignal** (In production) github.com/alyssom-fernandes/AlertSignal
Tracks permit and license expirations for multiple companies, with daily email alerts starting 90 days ahead and higher urgency at 30 and 7; reports in PDF, Excel, and CSV. 22 tests on GitHub Actions. Python · Flask · SQLite · APScheduler · pandas · openpyxl · Jinja2 · JavaScript · unittest · GitHub Actions

**FlowTrack** (Code) github.com/alyssom-fernandes/FlowTrack
Personal finance app with 3-layer AI categorization (rules → cache → Claude Haiku); imports statements from 4 banks, plus OFX and CSV. 83 automated tests. React 19 · TypeScript · FastAPI · Supabase/PostgreSQL · Claude Haiku · pytest · Playwright

**Docke** (Code) github.com/alyssom-fernandes/Docke
Multi-company electronic document management: OCR, tax obligations, legal retention, and a hash-chained audit trail. React · TypeScript · FastAPI · PostgreSQL (RLS) · Tesseract

## SKILLS

**Technologies:** Automated tests · JavaScript · CI (GitHub Actions) · Authentication & access roles · PDF / Excel reports · Dashboards & KPIs · Python · Scheduled jobs · PostgreSQL / Supabase · Offline & sync · Real time · Generative AI · TypeScript · React · FastAPI · Firebase · pandas · Flask + SQLite · OCR (Tesseract) · NF-e (XML)

**Business:** Accounting routines and support for the firm's other departments · Financial and operational data analysis · HR & payroll — Brazilian payroll filings (eSocial, DCTFWeb, FGTS, INSS) · Training and team coordination · Controllership & reconciliation, internal controls, AutoSystem ERP · Coordinating in-house teams and contractors, meetings, work oversight, finance support, project administration

## EDUCATION AND LANGUAGES

**Technology degree (Tecnólogo) in Systems Analysis and Development** — Brazilian higher-education degree · Uniasselvi · completed in 2026

**Portuguese** — Native · **English** — B1 · intermediate · **Spanish** — Basic
